Profile

A results-driven Java Full-Stack Developer with 2.7 years of experience in building scalable applications using Spring Boot (Microservices) and React.js. Skilled in full-stack development, API integration, and system automation. Passionate about developing high-performance software in Agile environments and contributing to enterprise-level solutions that improve business processes through efficient, maintainable, and robust systems.

Experience

Wipro Limited

May 2022 – January 2025

Project Engineer

Pune, Maharashtra

- Developed a microservices-based Rental management module with Payment Automation system for CAG to manage lease agreements, vendor payments, and real-time financial tracking across multiple branches.
- Designed and implemented RESTful APIs using Java 8 and Spring Boot for inter-service communication and data synchronization across services.
- Used Spring Data JPA and MySQL to handle large-scale transactional data, writing optimized queries for efficient data persistence.
- Built a multi-level role-based access control system (Admin, Regional Manager, Branch Officer) to ensure secure and restricted data access.
- Automated vendor payment processing workflows to ensure timely and accurate disbursements to property owners across CAG Bank branches.
- Developed front-end components using React.js and Redux for dynamic UI interactions, API integration, and state management.
- Created a centralized reporting module to generate downloadable lease details and payment reports in Excel and PDF formats.
- Integrated email and SMS notification systems to automate alerts for payment receipts, UTR details, and upcoming due payments.

Technical Skills

Backend: Java, Spring Boot, Spring REST, Spring Security, Microservices, RESTful APIs

Frontend: HTML5, CSS3, Tailwind CSS, Material-UI, React.js, React Hooks, Redux

Testing: JUnit, Jest, Mockito

Database: MySQL

Version Control & Tools: Git, GitHub, Maven, Postman

Projects

Ed-Tech Platform | MERN Stack

- Designed and developed platform, a comprehensive ed-tech platform aimed at enhancing learning experience for students and providing a global platform for instructor to showcase their expertise.
- The platform, built using the MERN Stack, offers a seamless and interactive learning environment.

Education

Savitribai Phule Pune University(SPPU)

Jun. 2019 – May 2022

Bachelor of Engineering in Information Technology

Pune, Maharashtra

Passed with 8.98 CGPA (First Class)

Courses

- Java Spring Framework 6 with Spring Boot 3 – *Udemy*
- Modern React with Redux – *Udemy*
- The Complete Java Course – *Udemy*
-

Languages

English, Hindi, Marathi
